

RIFACIMENTO

Meaning: Rifacimento refers to the process of renovating or restoring a structure, often with the intention of preserving its historical features while updating it for contemporary use.

1. The rifacimento of the historical building aimed to preserve its original charm while incorporating modern amenities.
2. After years of neglect, the rifacimento of the old theater breathed new life into the cultural scene of the town.
3. The architects proposed a rifacimento that would enhance the structure's functionality without compromising its aesthetic appeal.
4. Community support was essential in funding the rifacimento, as many locals cherished the site's historical significance.
5. The city's plans for the rifacimento included sustainable materials to ensure an environmentally friendly renovation process.
