ROADBED

Meaning: Roadbed: the foundation or base structure on which a road is built, providing support and stability for the surface above.

1. The construction crew meticulously prepared the roadbed to ensure a smooth and durable surface.

2. Heavy rains had eroded the roadbed, making travel treacherous for vehicles.

3. Engineers are analyzing the stability of the roadbed before proceeding with the new highway project.

4. The old roadbed was replaced with new materials to enhance its longevity and support heavy traffic.

5. Proper drainage is essential to maintain the integrity of the roadbed over time.
