

ROOD

Meaning: Rood: a cross or crucifix, particularly one displayed in a church, often as a decorative element or focal point in religious art and architecture.

1. The artist painted a striking crucifixion scene, featuring a vivid depiction of the rood in the center.
2. In medieval churches, the rood screen served to separate the nave from the chancel, often adorned with intricate carvings.
3. As the sun set, the shadows cast by the rood illuminated the altar, creating a serene atmosphere for contemplation.
4. During the historical tour, we learned about the significance of the rood in Christian symbolism and its architectural presence.
5. The ancient manuscript featured an illustration of the rood, symbolizing the sacrifice and redemption central to the faith.
