

# RORATION

*Meaning: Roration: the gentle rustling or movement of natural elements, such as leaves or waves, often producing a soothing sound.*

1. The roration of the leaves in the wind created a soothing melody that filled the garden.
2. As the sun set, the roration of the waves against the shore became more pronounced, echoing in the evening air.
3. During the ceremony, the roration of the candles symbolized the passage of time and the light of hope.
4. In her speech, she emphasized the roration of ideas that sparked innovation within the community.
5. The artist captured the roration of colors in her painting, reflecting the beauty of nature in transition.
