

ROWLOCK

Meaning: Rowlock: A fitting on a boat that holds an oar in place, allowing for effective rowing.

1. The rowlock provided a stable grip for the oars as we navigated the calm waters of the lake.
2. In traditional boat construction, the rowlock is essential for ensuring efficient rowing techniques.
3. During the rowing competition, the team paid close attention to the angle of their oars in the rowlocks.
4. He adjusted the rowlock to better fit the oar, improving his stroke efficiency on the river.
5. The old wooden rowboat had beautifully crafted rowlocks that showcased the craftsmanship of its builder.
