

RUNNEL

Meaning: A runnel is a small, narrow channel or stream of water, often formed by rain or flowing through a landscape.

1. The heavy rain created a small runnel that flowed through the garden.
2. Children gathered to splash in the cool runnel that ran beside the park.
3. The ancient stone path was lined with moss, and a runnel trickled nearby.
4. After the storm, a runnel of water snaked down the hillside, nourishing the plants.
5. She followed the runnel, hoping it would lead her to the hidden waterfall.
