

SACS

Meaning: SACS refers to "Southern Association of Colleges and Schools," an accrediting body that evaluates educational institutions, as well as "Sample Acquisition and Collection Systems," which are tools or containers used for organizing and transporting laboratory samples.

1. SACS are essential for organizing and transporting laboratory samples efficiently.
2. The university's SACS accreditation ensures that it meets high educational standards.
3. Many professionals rely on specialized SACS to protect delicate equipment during transit.
4. The new SACS design incorporates advanced materials for better durability and insulation.
5. During the meeting, we discussed the implementation of SACS in our research project.
