

SAPLING

Meaning: A sapling is a young tree, typically characterized by its small size and developing structure.

1. The gardener carefully planted the sapling in the freshly tilled soil.
2. As the seasons changed, the sapling grew taller and stronger under the warm sun.
3. Children gathered around to learn how to nurture a sapling into a mature tree.
4. A gentle rain fell, providing just the right amount of water for the young sapling.
5. With patience and care, the small sapling would one day become a majestic oak.
