

# SCRIBISM

*Meaning: Scribism is a style of artistic expression characterized by spontaneous, chaotic, and often abstract writing or drawing that reflects the complexities of human thought.*

1. Scribism often reflects the chaotic nature of human thought and expression.
2. The artist's latest work embodies a form of scribism that challenges traditional aesthetics.
3. In literature, scribism can manifest as a stream-of-consciousness style that captivates readers.
4. Critics argue that scribism lacks the refinement of classical techniques but celebrates raw creativity.
5. Many young writers are drawn to scribism as a way to explore their innermost feelings and ideas.
