SEARED

Meaning: Seared: characterized by being intensely burned or scorched on the surface, often resulting in a desirable crust in cooking or a sharp, painful sensation from heat.

1. The steak was perfectly seared, creating a delicious crust on the outside.
2. She felt a seared pain in her arm after accidentally touching the hot stove.
3. The chef seared the scallops quickly to retain their tender texture.
4. He glanced at the seared photograph of their last vacation, memories flooding back.
5. The seared edges of the dish added an appealing contrast to the vibrant vegetables.
