

SECESSION

Meaning: Secession is the act of formally withdrawing from a political union or organization, often in response to grievances such as oppression or lack of representation.

1. The state's secession from the union sparked a fierce debate about national unity.
2. Historically, secession has often been a response to perceived oppression or lack of representation.
3. After years of conflict, the region finally voted for secession, seeking greater autonomy.
4. Many historians argue that the secession movement was fueled by deep economic disparities.
5. The secession of the territory was met with resistance from the federal government, leading to a prolonged standoff.
