

SECTISM

Meaning: Sectism refers to the division and conflict arising from the adherence to specific sects or factions within a larger community, often leading to social fragmentation and intolerance.

1. Sectism can lead to a fragmentation of communities, making it difficult for people to find common ground.
2. The rise of sectism in various societies has sparked debates about tolerance and acceptance among different groups.
3. Many scholars argue that sectism undermines the fundamental principles of unity and peace that many religions promote.
4. Efforts to combat sectism often involve fostering dialogue and understanding between conflicting factions.
5. The consequences of sectism can be dire, as it can incite violence and perpetuate cycles of mistrust and hatred.
