

SELF-LUMINOUS

Meaning: Self-luminous refers to an object that emits its own light, rather than reflecting light from an external source.

1. The self-luminous glow of the jellyfish illuminated the dark waters around it.
2. In the depths of the cave, we discovered a self-luminous mineral that sparkled like stars.
3. The artist used self-luminous paint to create a stunning mural that came alive at night.
4. Bioluminescent organisms are fascinating examples of self-luminous life forms in the ocean.
5. The self-luminous dial on the watch made it easy to read the time even in complete darkness.
