

# SELF-PARTIALITY

*Meaning: Self-partiality refers to a tendency to favor one's own interests or perspectives, often resulting in biased judgments that neglect the needs of others.*

1. Self-partiality can often lead to biased decision-making that overlooks the needs of others.
2. In her pursuit of justice, she recognized the importance of overcoming her own self-partiality.
3. Self-partiality may cloud one's judgment, making it difficult to see a situation from multiple perspectives.
4. He acknowledged his self-partiality when it came to evaluating his own work compared to that of his peers.
5. To foster genuine empathy, one must strive to minimize self-partiality in their interactions with others.
