

# SEMILAPIDIFIED

*Meaning: Semilapidified refers to a state of partial decay or deterioration, particularly of a structure that shows signs of neglect while retaining some of its original form.*

1. The scientist examined the semilapidified structure, noting its once grand design now marred by neglect.
2. After years of exposure to the elements, the building had become semilapidified, leaning precariously to one side.
3. Visitors were captivated by the semilapidified ruins, which told stories of a vibrant past.
4. In the old town, a semilapidified cottage stood as a reminder of the community's historical roots.
5. The artist found inspiration in the semilapidified walls, transforming them into a canvas for her murals.
