

# SEMILUNARY

*Meaning: Semilunary refers to a shape or design that is partially moon-like or crescent-shaped, often characterized by a curved or arc-like form.*

1. The architect incorporated a semilunary design into the modern building, creating an inviting, curved facade.
2. During the festival, the semilunary shape of the decorations added a whimsical touch to the atmosphere.
3. The artist's painting featured semilunary motifs that beautifully captured the essence of the moonlit night.
4. In botanical terms, the semilunary leaf structure allows for efficient sunlight absorption while maintaining a delicate balance.
5. The ancient manuscript described a semilunary symbol believed to represent the duality of light and darkness.
