

SEMIOFFICIAL

Meaning: Semiofficial refers to something that is not fully official but has some degree of authority or recognition, often used in contexts like reports or documents that convey important information.

1. The semiofficial report provided insights into the government's new policy changes.
2. Despite its semiofficial status, the document was widely circulated among the public.
3. Many journalists rely on semiofficial sources to gather information that is not readily available.
4. The semiofficial statement from the organization clarified its position on the recent controversy.
5. In some countries, semiofficial news outlets serve as a bridge between the government and the citizens.
