

SEMIPERMANENT

Meaning: Semipermanent refers to a type of product or dye that provides lasting effects for a limited time, typically several weeks, without the permanence of a full treatment.

1. The artist used a semipermanent dye to create vibrant colors in her hair without the commitment of a full treatment.
2. Many cosmetic products, such as certain eyebrow tints, are designed to provide a semipermanent finish that lasts for several weeks.
3. Semipermanent markers are ideal for projects that require clear, bold lines without the risk of permanent stains.
4. The new semipermanent wall paint allows homeowners to change their decor more frequently without the hassle of a complete repaint.
5. She appreciated the semipermanent nature of the tattoo, as it allowed her to explore her identity without a lifetime commitment.
