

SENATOR

Meaning: A senator is a member of a legislative body, typically representing a state or region, who is responsible for making and voting on laws.

1. The senator delivered a passionate speech about climate change during the debate.
2. After much deliberation, the senator finally announced their support for the new healthcare bill.
3. Citizens gathered outside the senator's office to voice their concerns about local infrastructure issues.
4. In her role as senator, she has championed numerous initiatives aimed at improving education.
5. The senator's commitment to bipartisanship has earned her respect from both sides of the aisle.
