

SEQUESTRATE

Meaning: To sequestrate is to legally take possession of assets or funds, often to safeguard them during legal proceedings or investigations.

1. The court decided to sequestrate the assets of the company to protect the interests of its creditors.
2. In cases of severe financial mismanagement, regulators may choose to sequestrate funds until an investigation is complete.
3. To ensure compliance with the law, the government may sequestrate materials deemed hazardous to public safety.
4. The attorney argued that there was no valid reason to sequestrate the estate while the will was being contested.
5. After the scandal broke, the organization had no choice but to sequestrate the accounts of the implicated individuals.
