

SHOAR

Meaning: Shoar (noun): A navigational marker or landmark, often used by sailors and fishermen to guide their way along coastlines or through hazardous waters.

1. The fisherman used a shoar to navigate the rocky shores during the storm.
2. In ancient times, sailors relied on the shoar to guide them safely back to land.
3. As the tide receded, the shoar revealed hidden treasures along the beach.
4. The community gathered at the shoar to celebrate the annual seafood festival.
5. Children played along the shoar, collecting shells and watching the waves crash.
