

SIBILATE

Meaning: To sibilate means to produce a hissing or whispering sound, often resembling a soft, sibilant noise.

1. The wind seemed to sibilate through the trees, creating a haunting melody in the quiet forest.
2. As the snake approached, it began to sibilate softly, a warning to any nearby creatures.
3. In the distance, the sound of the train could be heard, sibilating as it rounded the bend.
4. The teacher's voice sibilated over the classroom, emphasizing the importance of clarity in communication.
5. Children often sibilate when they imitate the sounds of animals, adding a playful element to their games.
