

SIGIL

Meaning: A sigil is a symbolic figure or design, often used in magical or ritualistic contexts, believed to represent a specific intention or invoke spiritual forces.

1. The ancient manuscript was adorned with a mysterious sigil that seemed to glow faintly in the dark.
2. During the ritual, the priest traced a sigil in the air, invoking the spirits that were believed to protect the village.
3. Collectors of arcane artifacts often seek out sigils that hold historical significance in occult traditions.
4. The tattoo artist created a unique sigil for his client, believing it would bring them good fortune and protection.
5. In the fantasy novel, the protagonist discovered a sigil that granted her the power to communicate with mythical creatures.
