

# SIGNALMAN

*Meaning: A signalman is a railway worker responsible for directing train movements and ensuring safe operations, often using visual signals or communication methods.*

1. The signalman expertly guided the train through the fog with his bright lantern.
2. In the railway yard, the signalman communicated with the engineers using a series of hand gestures.
3. After years of service, the signalman was honored for his dedication during a special ceremony.
4. The signalman's sharp eyes caught the mistake before the train could proceed onto the wrong track.
5. In a critical moment, the signalman's quick thinking prevented a potential accident on the line.
