

SINGULARIST

Meaning: A singularist is a person or viewpoint that prioritizes individual expression and unique innovations over collective identity and mass trends.

1. The singularist perspective challenges conventional notions of collective identity in favor of individual expression.
2. In discussions about the future of technology, a singularist approach emphasizes the importance of unique innovations over mass trends.
3. She identified as a singularist, believing that each person's experience should be celebrated rather than generalized.
4. The singularist philosophy advocates for a focus on personal agency and distinct narratives in storytelling.
5. Critics of the singularist viewpoint argue that it neglects the broader social contexts that shape individual experiences.
