

SKUNK

Meaning: Skunk (noun): a small, typically black-and-white mammal known for its ability to spray a foul-smelling liquid as a defense mechanism.

1. The skunk quickly scurried across the road, leaving a lingering scent behind.
2. Children gasped in surprise when they spotted a skunk rummaging through their backyard.
3. After a long hike, we were relieved to spot a skunk from a distance rather than encountering one up close.
4. The classic prank involved pretending to be scared of a skunk, but it never got old.
5. In the wild, skunks are known for their distinctive black and white fur as well as their potent spray.
6. The skunk raised its tail, warning us of its potent defense mechanism.
7. After the skunk sprayed, the lingering odor made it hard to enjoy the evening outdoors.
8. Children at the zoo were fascinated by the skunk's black and white fur.
9. In some cultures, skunks are seen as symbols of mischief and cleverness.
10. We quickly turned around when we spotted a skunk wandering through the campsite.
