

SLIPPERNESS

Meaning: Slipperiness refers to the quality or state of being slippery, characterized by a lack of traction that makes surfaces difficult to walk on or maintain stability.

1. The slipperiness of the ice made it difficult for the skaters to maintain their balance.
2. Her shoes were designed to provide extra grip, preventing any chance of slipperiness on wet surfaces.
3. During the rainy season, the roads often become hazardous due to their slipperiness.
4. The slipperiness of the newly polished floor caught everyone off guard during the party.
5. He was warned about the slipperiness of the rocks near the river, but he didn't heed the advice.
