

SOFISM

Meaning: Sofism is a form of reasoning or argumentation that emphasizes subtlety and rhetorical skill, often leading to ambiguity or deception in philosophical or literary contexts.

1. Sofism often blurs the line between genuine philosophical inquiry and mere rhetorical flourish.
2. In literature, the influence of sofism can be seen in the way characters manipulate language to obscure their true intentions.
3. Many scholars argue that the practice of sofism undermines the pursuit of truth in philosophical debates.
4. The ancient Greeks were known for their sophists, who practiced sofism as a means of persuasive communication.
5. Sofism, with its emphasis on clever argumentation, can sometimes lead to more questions than answers.
