

SOPHIST

Meaning: A sophist is a person in ancient Greece who taught rhetoric and philosophy, often using clever but misleading arguments.

1. The sophist skillfully argued both sides of the debate, leaving the audience thoroughly confused.
2. In ancient Greece, a sophist was often regarded as a teacher of rhetoric and philosophy.
3. Despite his impressive arguments, many regarded him as a mere sophist who twisted the truth for his own gain.
4. The student's reliance on sophistry made it difficult for her to earn genuine respect from her peers.
5. Throughout history, sophists have been criticized for prioritizing persuasion over honest discourse.
