

SPAVINED

Meaning: Spavined refers to a horse affected by spavin, a condition that causes swelling or lameness in the hock joint, often resulting in reduced mobility or performance.

1. The spavined horse struggled to keep up with the faster steeds in the race.
2. Despite its spavined condition, the old mare still carried a certain grace in her movements.
3. She noticed the spavined gait of the pony, a sign of its long years of hard work.
4. The veterinarian examined the spavined joints of the aging gelding with concern.
5. In folklore, the spavined creature was often seen as a symbol of hardship and endurance.
