

SPRAD

Meaning: Sprad (noun): a sudden or sweeping movement or spread, often referring to natural elements like wind or light.

1. The sprad of the wind sent leaves swirling through the air.
2. As the sprad of dawn light broke over the horizon, the world seemed to wake anew.
3. The artist used a sprad of color to bring his painting to life.
4. With a sprad of enthusiasm, she shared her ideas with the team.
5. A gentle sprad of laughter filled the room during the lighthearted conversation.
