

SPRAWL

Meaning: Sprawl refers to the spreading out of a city or urban area into the surrounding countryside, often resulting in the encroachment on natural spaces.

1. The city's rapid sprawl has encroached on the surrounding natural habitats.
2. Children played joyfully in the sprawling green fields under the warm sun.
3. Urban sprawl often leads to increased traffic congestion and longer commutes.
4. The artist captured the beauty of the sprawling landscape in her latest painting.
5. Efforts to control suburban sprawl have become a priority for local governments.
