

STALLING

Meaning: Stalling refers to the act of temporarily stopping or delaying progress, either due to mechanical failure (as with a vehicle) or by intentionally prolonging a situation (as in conversation or decision-making).

1. The car was stalling on the steep hill, causing a traffic jam behind it.
2. She was stalling for time while she thought of a good excuse for being late.
3. Stalling during a presentation can make the audience lose interest quickly.
4. The negotiations were stalling due to disagreements over the contract terms.
5. He could feel his heart stalling as he awaited the results of the competition.
