

STREAMFUL

Meaning: Streamful: a quantity or flow of water, especially one that is abundant and rapidly moving, often as a result of rain or melting snow.

1. The heavy rain created a streamful of water rushing down the hillside.
2. As the thaw began, the mountains released a streamful of melting snow into the valley below.
3. We followed the path alongside a streamful brook that sparkled in the sunlight.
4. The streamful of ideas shared during the meeting sparked a lively discussion among the team.
5. With every passing day, the streamful of memories from our summer trip brings a smile to my face.
