

SUBAGENT

Meaning: A subagent is an individual or entity that acts on behalf of a main agent to provide specialized services or represent a party in a transaction, such as in real estate.

1. A subagent can often provide specialized services that enhance the main agent's offerings.
2. In real estate transactions, a subagent may represent the buyer while the main agent represents the seller.
3. The company decided to hire a subagent to expand its reach into new markets without significant overhead.
4. Legal agreements often outline the responsibilities and limitations of a subagent to prevent conflicts of interest.
5. Training programs for subagents are essential to ensure they align with the main agent's business practices and standards.
