

SUBDIVISION

Meaning: Subdivision: a residential area or community that is divided into smaller lots for the purpose of building homes.

1. The new subdivision features modern homes designed for young families.
2. Zoning laws require that the subdivision include green spaces for community use.
3. Investors are interested in purchasing land for a luxury subdivision on the outskirts of town.
4. The subdivision was planned to promote a sense of community among its residents.
5. After the storm, many homes in the subdivision suffered significant damage.
