SUBLIMABLE

Meaning: Sublimable refers to the ability of something, such as emotions or substances, to be transformed into a higher or more refined state, often through a process of sublimation.

1. Art can transform raw emotions into sublimable expressions that resonate with audiences.
2. The scientist proposed a theory that certain substances are sublimable under specific temperature conditions.
3. In therapy, feelings of frustration can be sublimable into creative outlets like painting or writing.
4. The philosopher argued that the human experience is filled with sublimable moments that reveal deeper truths.
5. She believed that pain and joy are both sublimable, capable of being transformed into meaningful narratives.
