

SUBPURCHASER

Meaning: A subpurchaser is an entity or individual that buys goods or services from a primary purchaser, adhering to the terms of the original contract with the supplier.

1. The subpurchaser agreed to meet the original contract terms outlined by the supplier.
2. In the complex supply chain, the subpurchaser plays a critical role in ensuring timely deliveries.
3. After reviewing the contract, the subpurchaser decided to renegotiate some of the pricing terms.
4. The manufacturer was pleased to find a reliable subpurchaser who could handle their increased demand.
5. It is essential for the subpurchaser to maintain clear communication with both the supplier and the end client.
