

SUNBURNING

Meaning: Sunburning refers to the process of developing a painful reddening of the skin due to prolonged exposure to the sun's ultraviolet rays, often exacerbated by insufficient sunscreen protection.

1. After a long day at the beach, I realized I had been sunburning without enough sunscreen.
2. The sunburning sensation on my shoulders reminded me to apply lotion more frequently next time.
3. We spent the afternoon hiking, and I ended up sunburning despite wearing a hat.
4. Her face showed signs of sunburning, turning a bright shade of red after our picnic.
5. Sunburning can lead to serious skin damage if proper precautions aren't taken.
