

SUNSQUALL

Meaning: Sunsquall: a sudden and intense burst of warm, gusty winds and turbulent weather, typically occurring in sunny conditions, often accompanied by choppy seas.

1. The sunsquall caught us off guard as we sailed into the shimmering horizon.
2. With a sudden rush of warm air, the sunsquall transformed the calm afternoon into a chaotic dance of waves.
3. As the sunsquall approached, the crew quickly secured the sails in anticipation of the unexpected weather.
4. We marveled at the beauty of the sunsquall, its golden light contrasting sharply with the darkening sky.
5. After the sunsquall passed, the ocean sparkled like diamonds under the bright sun.
