

SUPERSTITION

Meaning: Superstition is a widely held but irrational belief in supernatural influences, often involving omens or rituals that are thought to bring good or bad luck.

1. Many people avoid walking under ladders due to the superstition that it brings bad luck.
2. In some cultures, breaking a mirror is considered a superstition that foretells seven years of misfortune.
3. Her grandmother had a strong belief in superstition, often carrying a rabbit's foot for good luck.
4. The superstition surrounding black cats has led to widespread misconceptions about their nature.
5. Despite modern science, some still cling to old superstitions, believing they hold power over fate.
