

SURADDITION

Meaning: Suraddition: an addition to an existing structure, typically intended to expand its capacity or functionality.

1. The architect proposed a suraddition to the existing building to accommodate more office space.
2. After reviewing the plans, the city council approved the suraddition to enhance the community center.
3. The suraddition not only improved the functionality of the home but also its aesthetic appeal.
4. During the renovation, the contractor faced challenges with the suraddition blending seamlessly with the original structure.
5. Homeowners often consider a suraddition as a cost-effective way to increase their property's value.
