

SYNDICALISM

Meaning: Syndicalism is a political and economic theory that emphasizes the direct action and organization of workers through trade unions to achieve social and economic reforms.

1. Syndicalism advocates for the direct action of workers to achieve social change.
2. The rise of syndicalism in the early 20th century was a response to industrial capitalism.
3. Many labor movements were influenced by syndicalism and its emphasis on worker control.
4. Syndicalism promotes the idea that trade unions should be the primary agents of social revolution.
5. Critics of syndicalism argue that its focus on direct action can lead to chaos and disruption.
