

TECHNICIST

Meaning: Technician (noun): A person who emphasizes practical skills and technical methods over theoretical knowledge or creativity in a particular field, such as education or art.

1. The technician approach to education emphasizes practical skills over theoretical knowledge.
2. In the debate about art, some critics argue that a technician perspective reduces creativity to mere technique.
3. His technician mindset often led him to prioritize efficiency over artistry in his engineering projects.
4. The technician belief in the superiority of technology can sometimes overlook important human factors.
5. Many modern architects adopt a technician philosophy, focusing on the functionality of materials and structures.
