

THUNDERCLOUD

Meaning: A thundercloud is a dark, dense cloud associated with thunderstorms, often indicating impending rain and stormy weather.

1. The dark thunderclouds gathered ominously on the horizon, signaling an approaching storm.
2. As the thundercloud loomed overhead, the air grew thick with anticipation of the downpour.
3. Children scurried indoors as the thundercloud unleashed a spectacular display of lightning.
4. The thundercloud hovered menacingly above the city, casting shadows that hinted at a tempest.
5. After hours of watching the thunderclouds roll in, the first drops of rain finally began to fall.
