

THUNDERHEAD

Meaning: Thunderhead: a large, towering cumulonimbus cloud associated with thunderstorms, often characterized by its dark, ominous appearance.

1. The thunderhead loomed ominously over the horizon, signaling an approaching storm.
2. As the sun set, the thunderhead transformed into a giant, swirling mass of dark clouds.
3. The meteorologist pointed out the thunderhead on the radar, warning residents to prepare for heavy rain.
4. Children watched in awe as the thunderhead crackled with lightning, illuminating the sky.
5. Farmers welcomed the thunderhead, hoping it would bring much-needed rain to their parched fields.
