TICKER

Meaning: Ticker: a device or electronic display that continuously shows the current prices of stocks or other financial instruments, or a scrolling text display of information, often used in news broadcasts or sports events.

1. The stock ticker displayed a sharp increase in share prices throughout the day.
2. She felt her heart race as she watched the ticker tape during the intense game.
3. Investors rely heavily on the ticker to keep track of the latest market trends.
4. The news station's ticker provided real-time updates on breaking stories.
5. He glanced at the digital ticker scrolling across the bottom of the screen for the latest scores.
