

TOWN

Meaning: A town is a relatively small and populated urban area, typically smaller than a city, often characterized by a close-knit community and local amenities.

1. The small town was known for its charming cobblestone streets and friendly locals.
2. After years of living in the city, she decided to move back to her hometown for a quieter life.
3. Every summer, the town hosts a festival that attracts visitors from all over the region.
4. The mayor announced plans for new parks and improvements to make the town more appealing.
5. Walking through the town square, he admired the historic buildings that had stood for centuries.
