

TRESTLE

Meaning: A trestle is a framework, typically made of wood or metal, used to support a bridge or elevated structure, especially in railway construction.

1. The old railway trestle creaked ominously as the train passed over it.
2. He designed a sturdy wooden trestle to support his model train set.
3. The view from the trestle was breathtaking, overlooking the vast valley below.
4. During the storm, the trestle swayed dangerously but held firm against the wind.
5. Artists often use the trestle as a backdrop for their outdoor exhibitions and performances.
