

TRITHEISM

Meaning: Tritheism is the belief in the existence of three separate gods, as opposed to a single divine being.

1. Tritheism posits the existence of three distinct gods rather than a singular divine entity.
2. In theological debates, tritheism is often contrasted with monotheism and polytheism.
3. The early Christian sects were sometimes accused of tritheism for their interpretation of the Trinity.
4. Critics of tritheism argue that it undermines the foundational belief in a unified deity.
5. Understanding tritheism can provide insight into the complexities of ancient religious thought.
